

ESCAPE4SDGs

Escape games as a tool to raise awareness on the SDGs.

2022-1-PT02-KA220-YOU-000086096

2nd NEWSLETTER

The Project

The Escape4SDGs project is based on the principles of experiential learning, which suggests that individuals learn best through experience and active participation. Educational escape games provide an immersive and interactive experience that enables participants to discover things on their own, connect elements of the topic together, and get new insights. Through our project, we plan to make learning about the SDGs fun, engaging, and relevant to young people's lives

Are you curious about the specific objectives of this project?

Create 2 educational tools to promote the SDGs to young people in a fun way.

Train 25 young workers on how to create an educational Escape Game.

Enhance the capacity and skills of 5 European organisations to create virtual Escape Games.

Foster active citizenship among 250 young people and engage society by raising awareness about the

Project Results

The following Results will be developed during the project's implementation.

1. Training KIT – “From theory to practice-creating thematic escape games”

The English version of the Training KIT was **launched** on the project website! Take a look at it to learn more about the SDGs, educational escape rooms and to get ideas about activities to implement with young people, so they can develop important skills, useful to achieve the SDGs!

The KIT will provide both a theoretical and practical framework for youth workers to use when developing Educational Thematic Escape Games.

2. Escape4SDGs APP - Set of 4 Virtual Escape Games

The APP was already **launched** on Android to be piloted internally by the partners' staff and youth workers. Follow us to see the final version of the APP, which will contain 4 virtual escape games, each targeting one of the areas of the SDGs: society, culture, economy and environment!

History of SDGs

The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

Transnational Partners Meeting 18 & 19/09/2023

In September 2023, the Escape4SDGs partners met in Istanbul, Turkey, for their second Transnational Project Meeting. They had the opportunity to meet in person and present the work done until then for the Training KIT and the Virtual Escape Rooms. They have also planned the LTTA that will take place in December, in Targu-Jiu, Romania. During the LTTA 25 youth workers will learn about SDGs and how to use educational escape rooms to raise awareness about the importance of achieving the SDGs.
